God is good, and you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.

But you are good.
